Dear Sirs:

The following is my report  
on the work I have at the  
Federal Bakery, Cassidy Bros,  
411 Broadway St. Gary Ind. on  
a "2 Roll, Type C" dough mixer  
no. 3159.

I put first my fingers  
parting on each side of the  
mixer, the parting on the  
left side was very bad.  
This is caused by the bearing  
head on this side being  
very badly worn and which  
caused shaft to work up  
and down when the mixer  
is being run, the dough
